BANKING SUPERVISION

List of supervised entities

Appendix

Disclaimer:

This list displays the significant supervised entities, which are directly supervised by the ECB (part A) and the less significant supervised entities which are indirectly supervised by the ECB (Part B). Based on Article 2(20) of Regulation (EU) No 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for cooperation within the Single Supervisory Mechanism between the European Central Bank and national competent authorities and with national designated authorities (OJ L 141, 14.5.2014, p. 1 - SSM Framework Regulation) a 'supervised entity' means any of the following: (a) a credit institution established in a participating Member State; (b) a financial holding company established in a participating Member State; (c) a mixed financial holding company established in a participating Member State, provided that the coordinator of the financial conglomerate is an authority competent for the supervision of credit institutions and is also the coordinator in its function as supervisor of credit institutions (d) a branch established in a participating Member State by a credit institution which is established in a non-participating Member State.
The list is compiled on the basis of significance decisions which have been adopted and notified by the ECB to the supervised entity and that have become effective up to the cut-off date.

Remarks:

The entries marked with (*), if any, refer to supervised entities which are currently directly supervised pursuant to the three years-rule in Article 47 of the SSM Framework Regulation.
The entries marked with (**) refer to a joint venture established between the groups headed by Crédit Agricole S.A. and Banco Santander, S.A and are therefore presented under both those groups.
The entries marked with (HI) refer to supervised entities which are classified as high-impact LSIs. The classification is usually determined once a year and remains valid from 01.01. to 31.12. The designation of an LSI as high-impact is a factor that NCAs take into account when determining the frequency and level of detail of their supervisory activities. In addition, NCAs are obliged to notify the ECB of any material supervisory procedures or decisions in respect of these institutions, in line with Art. 97 and 98 of the SSM Framework Regulation.
The entries marked with (&) refer to supervised entities which, although meeting one of the criteria under the SSM Regulation and therefore qualifying as significant, have nevertheless been classified by the ECB as less significant because of particular circumstances in accordance with Article 6(4) of the SSM Regulation and Article 70 of the SSM Framework Regulation.
